

INDEX TO VOLUME XX.

- Abiella*, affinities of, 333-336.
- ABSALOM, R. G., 117, 347.
- ANDERSON, E. M., 116.
- F. W., 117, 118.
- J. G. C., 119, 133, 360; on the Dalradian Rocks of Arran, 264-286; on the Stratigraphical Order of the Dalradian Schists near the Highland Border in Angus and Kincardine, 223-237.
- Angarodon*, affinities of, 327.
- Angus and Kincardine, Stratigraphical Order of the Dalradian Schists near the Highland Border in, 223-237.
- Annan Basin, Dumfriesshire, Triassic Rocks of the, 161-179.
- Anthracomya*. See under *Palaeodontia*.
- Anthraconauta* and *Naiadites*, geological range and affinities of, 308-326.
- Arctic shell-bed at Ormaig, Loch Craignish, 345-347.
- Arran: Arenig rocks of, 272; Contact between the Granites of North, 180-204; Dalradian Rocks of, 264-286; Lower Lias in, 207; Upper Carboniferous of, 141-154.
- Ashgillian of the Girvan district; a new species of *Cyclocystoides* from, 22, 23-27; new species of cephalopods from, 103-115; two new trilobites from, 260-263.
- Ayrshire Bauxitic Clay, 145, 151, 343.
- BAILEY, E. B., on Canyons of the Continental Slope, 13-15; on the Early Palaeozoic Schists of New York State, 6-11; on the Martie Over thrust Problem, 12-13; on the Palisades Dolerite Sill, 1-6; on the Petrography of the Carboniferous rocks of Glas Eilean, Sound of Islay, 253-258.
- BARRETT, B. H., 353, 358; on the Triassic rocks of the Annan Basin, Dumfriesshire, 161-179.
- Basalt-jasper, 245.
- BEGG, J. L., 116, 355, 357, 359, 360; on a New Trilobite from the Ashgillian of the Girvan district, 260, 261-263; on the Genus *Cyclocystoides*, with the description of a new species from the Ashgillian of the Girvan district, 21-29.
- BLAND, F. E., 360.
- Borestes* gen. nov., 36; description of, 53-54.
- *wrighti* sp. nov., description of, 54-55.
- *procerus* sp. nov., description of, 55-56.
- Bridge of Awe, Argyllshire, Outlier of Carboniferous rocks at, 73-76.
- Broadford, Skye, base of the Lias near, 205-207.
- BROCK, Miss E. R., 360.
- Buchites, 245.
- Bute (South), Notes on the Geological Structure of, 96-102.
- Calcareous Sandstone Series: in the Paisley district, 17; in South Bute, 96, 97, 98, 100.
- Canonbie, Trias near, 161, 164, 166, 167, 171, 178.
- Canyons of the Continental Slope, 1, 13-15.
- Carboniferous Pleurotomariidae, a Revision of the Scottish, 30-72.
- rocks: at Bridge of Awe, Argyllshire, 73-76; derived boulders in Basal Conglomerate of Trias of the Annan Basin, 164; of Glas Eilean, Sound of Islay, 249-259; see also under Lower and Upper Carboniferous.
- Carnegie Trust for the Universities of Scotland, acknowledgments to, 337 and see Prefaces to Parts I and II.
- Catacol Syncline, Arran, 226, 269, 271, 273, 275, 276, 278, 284.
- Cephalopods from the Drummock Group (Ashgillian) of the Girvan district, 103-115.
- Clough Memorial Prize, 357.
- Research Fund, 154, 202, 250, 284.
- Coal Measures: of Arran, see under Upper Carboniferous; of the Kil-winning district, 343-344.
- Composite sill, South Bute, 96, 98, 100, 101.
- Contact between the Granites of North Arran, 180-204.
- Continental Slope, Canyons of the, 1, 13-15.
- CONACHER, H. R. J., 238, 243.
- Cordierite in fused spent shale, 239, 240, 241, 242, and especially, 243-245.

- Cowal Anticline, 281.
 Crinanite sill, South Bute, 96, 97, 98, 100, 101.
 Cumberland, Trias of: classification, 162; comparisons with Trias of Annan Basin, *see* 164-178 *passim*; fossil insect from the Barren Red Measures at Jockie's Syke, 341-342.
 CURRIE, Miss E. D., 124, 346, 355, 358.
Cyclocystoides and *C. wrighti* sp. nov., description of, 21-29.
 Dalradian Schists, in Angus and Kincardine, 223-237; in Arran, 264-286; in the North Esk, near Edzell, 138.
Diastoceras lamontii sp. nov., 104; description of, 111-112.
 — *scoticum* sp. nov., 104, 105; description of, 112-113.
 DINHAM, C. H., 131, 132.
 DOLLAR, A. T. J., 120, 353.
 Drummock Group (Ashgillian) of the Girvan district, new fossils from, *see* under Ashgillian.
 Dumbarton, borings at, 121-130.
 DUNCANSON, D. B., Obituary Notice of, 348.
 Early Palaeozoic Schists of New York State, 1, 6-11.
Edmondia punctatella, 334, 335, 336.
 EYLES, V. A., 116; on the Interbasaltic Beds of North-East Ireland (abstract), 357.
 FISHER, W. D., on a New Exposure of the Hollybrush Limestone at Paisley, 17-20.
 FLETT, W. R., 118; on the Contact between the Granites of North Arran, 180-204.
 Fused spent shale from a retort at Pumpherstons, 238-247.
 Girvan district, new fossils from. *See* under Ashgillian.
Glabrocingulum gen. nov., 35, description of, 38-39.
 — *armstrongi* sp. nov., 36; description of, 42-43.
 — *atomarium*, 35, 36; description of, 40-41.
 — *beggi* sp. nov., 35, 36; description of, 39-40.
 Glas Eilean, Sound of Islay, Carboniferous rocks of, 249-259.
 Graded bedding in Dalradian schists. *See* 224-233 and 268-277 *passim*.
 Granites of North Arran, Contact between the, 180-204.
 Gravitational differentiation in the Palisades Dolerite Sill, 1-6.
 Greisen veins near the contact of the North Arran granites, 186-187, 191, 196, 199.
 HAMILTON, J., Obituary Notice of, 348-349.
 HENDERSON, S. M. K., 117, 119.
Hesperrella, 50-51.
 — *loudoni* sp. nov., description of, 52-53.
 — *thomsoni*, description of, 51-52.
 Highland Border Series: in the North Esk, near Edzell, 136-142, 223, 229; near Callander, 136, 140.
 — Boundary Fault: in Angus and Kincardine, 223, 224, 225, 229, 232, 233, 234; in Arran, 267, 271, 272, 278; in the North Esk, 138.
 Hollybush Limestone, Paisley, a new exposure of the, 17-20.
Hypselenotoma, 65.
 — *welleri*, sp. nov., description of, 65-66.
Iliaenus drummuckensis sp. nov., description of, 260-261.
 Inlier of Carboniferous rocks at Redkirk Mill, Dumfriesshire, 173-177.
 Jasper and Green Rock Series (Highland Border Rocks), 136, 138, 139, 140, 223.
 Jointing in North Arran granites, 185-186 and 189-199 *passim*.
 Jurassic. *See* under Lias.
 KENNEDY, W. Q., 353; on Transcurrent Movement exemplified by a Fault in the West Lothian Oil-Shale Field, 287-290.
Kidodia, affinities of, 333.
 Kilwinning district, a New Plant Horizon in the Coal Measures of the, 343-344.
 Kirklington Sandstone, Annan Basin, 174, 175, 176, 177, 178.
 Kuznetsk Basin, stratigraphy and non-marine lamellibranch faunas of the Permian of the, 292-300.
 Lamellibranch faunas, Permian non-marine, a review of recent work on, *see* 291-240.
 Lateral displacement along fault, *see* 287-290.
Latischisma gen. nov., description of, 59-60.
 — *globosa* sp. nov., description of, 60-61.
 — *globosa* var. *nitida* nov., description of, 61-62.
 — *tornatilis*, description of, 62.
 LEE, J. R., 346.

- Leipakou Coal Basin, Hunan, Permian non-marine lamellibranch fauna of the, 304-306.
- LEITCH, C., 355.
- D., 355; on *Naiadites* from the Lower Carboniferous of Scotland, 208-222; on a New Plant Horizon in the Coal Measures of the Kilwinning district, 343-344; on the Upper Carboniferous rocks of Arran, 141-154.
- P. A., Obituary Notice of, 349.
- Leven Valley, Dumbartonshire, 121-135.
- Lias, base of, near Broadford, 205-207; in Arran, 207.
- Loch Lomond Basin, origin of. See 131, 132, 133, 134.
- Loch Ranza Anticline, 269, 274, 276, 277, 278, 281, 282.
- Lower Carboniferous Inlier at Redkirk Mill, Dumfriesshire, 173-177.
- of Scotland, *Naiadites* from the, 208-222.
- MCCALLIEN, W. J., 118, 353, 354, 357; on the Geological Structure of South Bute, 96-102.
- MACGREGOR, A. G., 117, 250, 253.
- MACGREGOR, M., 353, 354, 355; on the Boundary between the Old Red Sandstone and Carboniferous Formations in the Midland Valley (abstract), 358; on the Leven Valley, Dumbartonshire, 121-135; Notice of John Smith, 155-160; See also under Pringle, J.
- M'LEAN, A., Obituary Notice of, 350.
- MACLENNAN, MISS R. M., 355, 358.
- M'MEEKIN, T., Obituary Notice of, 350.
- M'QUEEN, D. T. H., Obituary Notice of, 351.
- Margie Series (Highland Border Rocks), 136, 138, 139, 140, 223, 232, 233.
- Martic Overthrust Problem, 1, 12-13.
- MAXWELL, J. H., on an Occurrence of Late-Glacial Clays at Ormaig, Loch Craignish, 345-347.
- MELVILLE, Miss E., 355.
- Metamorphic zones in the Dalradian, 223-224, 227, 228, 232, 236.
- Millstone Grit. See under Ayrshire Bauxitic Clay and Upper Carboniferous of Arran.
- Minusinsk Basin, Permian non-marine lamellibranch fauna of the, 300.
- Mourlonia*, description of, 57-58.
- *striata*, description of, 58-59.
- Mrsiella*, affinities of, 327.
- MUNRO, F., 116.
- Myalacris similis* from the Barren Red Measures of Cumberland, 341-342.
- Naiadites* and *Anthraconauta*, geological range and affinities of, 308-326.
- Naiadites* from the Lower Carboniferous of Scotland, 208-222.
- Neilsonia* gen. nov., 36; description of, 46.
- *acuminata* sp. nov., description of, 48-49.
- *roscobiense* sp. nov., description of, 46-48.
- sp., description of, 49-50.
- Neumatoceras drummuckense* sp. nov., 104; description of, 108-110.
- New Red Sandstone. See under Permian and Trias.
- New York, Palisades Dolerite Sill near, 1-6.
- State, Early Palaeozoic Schists of, 1, 6-11.
- Obituary Notices, 348-352.
- Old Red Sandstone. See under Upper Old Red Sandstone.
- Olivine in fused spent shale, 239-240, 242, 244, 245.
- Orthogenesis, Meaning of, 77-95.
- Outlier of Carboniferous rocks at Bridge of Awe, Argyllshire, 73-76.
- Palaeonodonta*, *Palaeomutela* and *Anthracomya*, geological range and affinities of, 327-333.
- Palaeomutela*. See preceding item.
- Palaeozoic (Early) Schists of New York State, 1, 6-11.
- (Upper) non-marine lamellibranchs and their affinities with those of the Permian. See 291-340 *passim*.
