

CONTENTS—VOL. XI., PART I.

PAPER	PAGE
I. On the Occurrence of Species of the Genus <i>Palastræa</i> (M'Coy) in the Lower Carboniferous Strata of Scotland, with a Description of some New Species and Notices of Varieties. By James Thompson, F.G.S., <i>Hon. Member</i> , &c. With a Plate [No. I.],	1
II. On the Stratified Rocks of the Shore-line from Clachland Point to the Cock of Arran. By James Thompson, F.G.S., <i>Hon. Member</i> , &c. With a Section [Plate II.],	12
III. Notes on the Geology of the Island of Eigg. By Henry Taylor. With a Map [Plate III.],	32
IV. On <i>Cladodus Neilsoni</i> (Traquair), from the Carboniferous Limestone of East Kilbride. By R. H. Traquair, M.D., LL.D., F.R.S., &c. With a Plate [No. IV.],	41
V. On the Genus <i>Phillipsastræa</i> . By James Thompson, F.G.S., <i>Hon. Member</i> , &c. With two Plates [Nos. V. and VI.],	51
VI. Desert Conditions in Britain. By J. G. Goodchild, H.M. Geological Survey, F.G.S., F.Z.S., &c. With a Plate [No. VII.],	71
VII. <i>Parka decipiens</i> , its Origin, Affinities, and Distribution. By J. Reid, W. Graham, and P. Macnair. With a Plate [No. VIII.] and a Section,	105
VIII. On a Section of Carboniferous Strata in a Cutting of the Caledonian Railway at Lissens, Three Miles North-east of Kilwinning, Ayrshire. By John Smith. With two Sections,	122
IX. On a Globular Structure in a Patch of Shale enclosed in the "Deil's Dyke," near Greenan Castle, Ayrshire. By John Smith. With a Diagram,	128
X. "Coal Apples" from Lugton Water. By John Smith. With a Diagram,	130
XI. "Shale Sockets" of Cement Nodules from Thornliebank. By John Smith. With a Diagram,	131
Proceedings for Thirty-ninth Session, 1896-1897,	132
Report of the Council for 1895-96,	134
Papers read in Session 1895-96,	134
Excursions in 1896,	136
Report on the Library,	138
Report on Fossil Trees at Whiteinch,	151
Abstract of Treasurer's Accounts,	152
