

INDEX.

- Anthracosia*, range of, in coal measures near Glasgow, 141.
- Arran, fossil trees in trappean ash in, 97.
- Armstrong, James, description of *Cypricardia acuticarinata*, 28.
-
- crebricostata*, 28. *Cypricardia*
-
- On the teeth of *Dithyrocaris*, 73.
-
- Description of *Nautilus nodiferus*, 74.
-
- Pleurotomaria Youngiana*, 75.
- Ballagan series of rocks, 209.
- Beith, Sections of limestone at, 292.
- Bennie, James, Surface Geology of Glasgow, 100, 260.
-
- Bos longifrons* and *B. primigenus* in drift of the Clyde, 152.
- Bowling Hills, Coal under the traps of, 149.
- Bryce, Dr. James, age of Trap Rocks, near Glasgow, 17.
-
- Earthquake district of Perthshire, 70.
- Burns, John, Encroachments of the Sea, 162.
- Cathkin hills, Igneous rocks and minerals of, 41.
- Cameron, Wm., Auriferous rocks and drifts of Victoria, 117.
- Campbeltown district, On the Geology of, 76.
- Campbell, J. Donald, Ice action in Scotland and Switzerland, 54.
- Chiton* and *Chitonellus*, provisional notice of new, 13.
- Chiton humilis*, description of, 14.
- Chitonellus Youngianus*, description of, 14.
- Climate in Scotland since glacial epoch less complete than in Canada, 138.
- Coal Measures, Carboniferous limestone fossils in, 52.
- Craig, R., Section of limestone at Beith, 292.
- Croll, James, Change of climate in Scotland since the glacial epoch less complete than in Canada, 138.
-
- Change in the obliquity of the Ecliptic, 177.
- Crosskey, Rev. H. W., On a section near Inchnadamff, 19.
-
- Glacial deposits of the Clyde district, 45.
-
- Address at close of Session 1864-65, 90.
-
- Note on Fossils collected at Windmillcroft, 113.
-
- The relation between Glacial deposits of the Clyde and Canada, 132.
-
- Address in memory of James Smith, President, 228.
-
- and David Robertson, Post-tertiary fossiliferous beds of Scotland, 267.
- Crustacea and Insecta from Coal measures, Notes on, 234.
- Currie, Alexander, Coal under traps of Bowling hills, 149.
- Cypricardia acuticarinata*, description of, 28.
-
- crebricostata*, description of, 28.
-
- Davidson, Thomas, description of *Lingula Thomsoni*, 149.
- Dithyrocaris, The teeth of, 73.
- J. Dougall, On ancient sea-margins around Glasgow, 30.
-
- On the "Enterkin," 255.
-
- Earth's crust, movements in, 40.
- Earthquake district of Perthshire, 70.
- Ecliptic, Change in the obliquity of, 177.
- "Enterkin," On the Scenery of the, 255.
- Encroachments of the Sea, 162.
- Entomostraca of the Carboniferous rocks of Scotland, 213.
- Entomostraca, On the collecting and mounting of fossil, 155.
- Estheria punctatella*, description of, 71.
-
- Note on the occurrence of, 72.
- Excursions, 95, 168.
- Exhibitions of Specimens—
Chiton, Brachiopoda, and Entomostraca, 15.

Exhibitions of Specimens—

- Flint implements and Liassic fossils, 16.
 Reptilian remains from Airdrie black-band, 16.
 Fish Spines, 29.
 Laurentian gneiss, 29.
 Langite, 29.
Pleuracanthus gibbosus, 40.
 Section of Coal-pit, 40.
 Coal-tar products, 52.
 Brachiopoda and *Gyrolepis Rankinii*, 54.
Palaeontiscus, 56.
Palaeontiscus, 56.
 Carb. fossils from Belgium, 56.
 Carb. corals, 69.
 Fish remains, 69.
Peltoecaris apychooides, 69.
 Crustacea and Insecta from Kilmaurs, 160.
 Fossil plants from Arran, 160.
 Carb. Corals, 161.
Balanus cariosus, 163.
 Carb. Foraminifera, 164.
 Carb. univalves, 166.
Wulfenite and Vanadate of Copper, 166.
Bos longifrons, 166.
Crania trigonalis, 294.
 Glacial Shells, 295.
Amphicentrum granulatum, 295.
 Graptolites, 297.
 Tertiary leaves, 297.
 Jaw from Airdrie, 298.
 Pebbles and Nodules, from Kilbride, 298.
Megacithys from Quarter, 299.
- Fault in Dumbuck Glen, 257.
- Geikie, Archd., Origin of the Present Scenery of Scotland, 4.
 Glacial deposits of Scotland and Canada, 132.
 Glacial deposits of the Clyde district, 45.
 Glasgow, Surface Geology of, 100, 260.
- Ice action in Scotland and Switzerland, 54.
 Inch-na-damff, On a section near, 19.
 Insecta from Coal Measures, Notes on, 234.
- Jerusalem, Geological features of the country around, 61.
 Jones, T. Rupert, description of *Estheria punctatella*, 71.
 ——— and J. W. Kirkby, On the Entomostraca of the Carboniferous rocks of Scotland, 213.
- Kirkby, J. W., Description of *Chiton humilis*, 14.
 ——— *Chitonellus Youngi-*
anus, 14.

- Kirkby, J. W., and T. Rupert Jones, On the Entomostraca of the Carboniferous rocks of Scotland, 213.
- Library, Donations to, 95, 173, 303.
Lingula, in Carb. series of West of Scotland, 144.
Lingula Thomsonii, Description of, 149.
- Machattie, Dr. A. T., On Metamorphism, 20.
 Magnesia in rocks, On the presence of, 64.
 Members, List of, at 1st October 1867, 308.
 Metamorphism, 20.
 Mineral from Paisley, analysis of, 36.
 Mineral from Cathkin, analysis of, 212.
- Nautilus nodiferus*, description of, 74.
 Notes and Queries, 155, 291.
- Page, David, Scottish Geology, 252.
Pleurotomaria Youngiana, description of 75.
 Post-tertiary fossiliferous beds of Scotland, 267.
 Proceedings, 159, 293.
- Quartz and its mode of formation, 56.
 Quartz crystals in limestone, 291.
- Reid, J., Movements in the Earth's Crust, 40
Rhizodus Hibbertii in Carboniferous strata near Glasgow, 33.
 Robertson, David, and Rev. H. W. Crosskey. Post-tertiary fossiliferous beds of Scotland, 267.
 Rye, Sections at the, 248.
- Sandstones, Varieties of Carboniferous and Old Red, near Glasgow, 33.
 Sandstones, On the Chemistry of some Carboniferous and Old Red, 198.
 Scotland, Origin of the present Scenery of, 4.
 Scouler, Dr. John, Extinct quadrupeds in the valley of the Clyde, 167.
 Scottish Geology, its proofs and problems, 252.
