

## INDEX TO VOLUME XXII

- Abstract of Proceedings, 103-111, 192-199.
- Analyses of minerals, new: garnet from contact rocks, Ben Vrackie, 67; garnets from epidiorite, Ben Vrackie, 57; garnet from felsite, Tinto, 97; hornblendes from contact rocks, Ben Vrackie, 67; hornblendes from epidiorite, Ben Vrackie, 57.
- of rocks, new: contact rocks, Ben Vrackie, 67; epidiorites, Ben Vrackie, 61.
- ANDERSON, W. C., Obituary Notice of, 100.
- Annan, River. *See under* Drainage in the Southern Uplands: Clyde, Nith, Annan.
- and Clyde, relation between, 27-33.
- and Esk, Lower Carboniferous rocks between, 80-93.
- Annandale Sandstone, 83.
- Arbigland Group, 115, 122-124.
- ASHFORD, J., 194.
- Ayrshire, South, two Ordovician conglomerates in, 133-156.
- BASSETT, D. A., 198.
- BEGG, J. L., Obituary Notice of J. Wright, 189-191.
- Beinn Bhreac, Kyle of Tongue, Sutherland, conglomerate outlier of, 41.
- Ben Tongue, Kyle of Tongue, conglomerate outlier of, 41.
- Ben Vrackie, Perthshire, petrology of the epidiorites and their contact rocks, 48-79.
- Birensward Volcanic Group, 82-83, 115, 116, 117, 129.
- BLOXAM, W., 105.
- BROCK, Miss E. R., 105.
- BROWN, W. L. *See under* McINTYRE, D. B.
- Carboniferous. *See under* Lower Carboniferous.
- micropalaeontology, problems of (abstract of lecture), 193-194.
- Carnegie Trust, acknowledgment to, *see* Preface to Part I.
- Cementstone Group: between the Rivers Esk and Annan, Dumfriesshire, 81, 83-84; in the Kirkbean Outlier, Kirkcudbrightshire, 115, 116-119, 129.
- CLARKE, W. J. *See under* McINTYRE, D. B.
- Clyde, River. *See under* Drainage in the Southern Uplands: Clyde, Nith, Annan.
- and Annan, relation between, 27-33.
- COMMON, R., on the geomorphology of Macedonia (abstract of lecture), 193.
- Conglomerates of Ordovician age in South Ayrshire, 133-156.
- of supposed Old Red Sandstone age near Tongue, Sutherland, 35-47.
- Conodonts: a problematical group of early microfossils (abstract of lecture), 108-109.
- Contact rocks associated with the Ben Vrackie epidiorites, petrology of, 64-77.

- CRAIG, G. Y., on the Lower Carboniferous Outlier of Kirkbean, Kirkcudbrightshire, 113-132.
- CUMMINGS, R. H., 105, 197, 198; on Carboniferous micropalaeontology (abstract of lecture), 193-194.

- Dalveen Pass, 10-14.
- DEER, W. A., on Layered Intrusives (abstract of lecture), 198-199.
- DOLLAR, A. T. J., 193.
- Drainage in the Southern Uplands: Clyde, Nith, Annan, 1-34; epigenetic heritage, 2-5; platform residuals and base-levels, 5-10; the Dalveen Pass, 10-14; piracy by the Crawick Water, 14-19; integration of the River Nith, 19-26; relation between Clyde and Annan, 27-33; drainage evolution, 33-34.
- Dumfriesshire, Lower Carboniferous rocks between the Rivers Esk and Annan, 80-93.
- East Kirkton Limestone, 157-168.
- Eilean Iosal, Kyle of Tongue, Sutherland, conglomerate outlier of, 37, 38, 42, 43, 44.
- Eilean nan Ron, Kyle of Tongue, Sutherland, conglomerate outlier of, 35, 37, 38, 42, 43, 44.
- Epidiorites of Ben Vrackie and their Contact Rocks, petrology of, 48-79.
- Esk and Annan, Lower Carboniferous rocks between, 80-93.
- Evaporite deposits, formation of (abstract of lecture), 194.
- Fells Sandstone Group: between the Rivers Esk and Annan, Dumfriesshire, 81, 84-85; in the Kirkbean Outlier, Kirkcudbrightshire, 115, 119-122, 129.
- Felsite, Tinto, Lanarkshire, an occurrence of garnet in, 94-99.
- FORREST, A., 105, 194.
- FORSYTH, I. H., 194, 198.
- Garnet, an occurrence of, in the felsite of Tinto, Lanarkshire, 94-99.
